## Education

### Government Polytechnic, Mumbai

Diploma In Information Technology

2021 - present

98%

### Saraswati VidyaMandir & Jr. College, Pachal

10<sup>th</sup> SSC

2015 - 2021

97.80%

## Projects

### PolyConnectHub – <https://polyconnecthub.netlify.app>

[Source Code](#)

- **PolyConnectHub** serves as a centralized platform, offering a comprehensive repository of projects crafted by polytechnic colleges. Its three distinct dashboards cater to Super Admins, Points of Contact (POCs) representing each college, and Heads of Departments (HODs) across various disciplines. Through PolyConnectHub, students gain easy access to valuable insights, enabling them to explore, engage with, and leverage previous projects for academic and professional growth.
- **Technologies Used:** React js, TailwindCSS, Node js, MongoDB, Express js

### IT-DEPT – <https://information-technology.netlify.app>

[Source Code](#)

- This is the website of IT Department of Government Polytechnic Mumbai, which includes all the information about department and it provides dashboard for Admin, Faculties and Students. All can manage the study materials, time tables and other things.
- **Technologies Used:** React js, TailwindCSS, Node js, MongoDB, Express js

### ByteStudy - <https://bytestudy.netlify.app>

[Source Code](#)

- Developed Bytestudy, a user-centric web app catering to college students, providing a wide array of study resources, such as detailed notes, question papers, and interactive experiments. Implemented an efficient admin panel to oversee content management, fostering an enriched learning experience and empowering students to excel in their studies.
- **Technologies Used:** React js, TailwindCSS, Node js, MongoDB, Express js

### NASA AE - <https://nasa-ae-24.netlify.app>

[Source Code](#)

- This website contains data fetch from NASA APIs.
- It contains Image Library by NASA and Astronomy Picture of the Day.
- **Technologies Used:** React js, TailwindCSS

## Technical Skills

**Languages:** Python, Java, C++, JavaScript

**Backend:** Node.js, Express.js

**Frontend:** React, TailwindCSS, HTML, CSS, Bootstrap

**Databases:** MongoDB, MySQL

**Developer Tools:** Postman, VS Code, GitHub
